FM3002 - Application Note

Layout and thermal guidelines for FM3002

1. Scope
  This application note is a demo artifact for website preview.

2. Recommended layout
  Keep the input capacitor loop as small as possible.
  Use a solid ground plane under the device.

3. Thermal considerations
  Provide sufficient copper area on the drain / VOUT pads.

4. Measured values (demo)

VDS	20V
ID	100A
Rds(on)	3.8mohm
